

H2O-i160

Hydroz
Sales@hellohydroz.com
(833) 714-9376

735 Crofton St. SE
Grand Rapids, MI 49507

Hydroz's midline model in the combo Ice and Water dispensing sector, the H2O-i160 is perfect for medium level traffic applications where a sleek profile and efficient foot print are necessary.

The H2O-i160 can dispense cold water, ice nuggets, and a combination of both ice and cold water. A drip tray and drain line integration as well as a digital trouble shooting interface ensure minimal to no maintenance time.

In regards to production capacity, the H2O-i160 can produce the equivalent of a retail 5lb ice bag every 70 minutes. The H2O-i160 also Insta-Cold Ice-Bank technology allowing continuous production of up to 10 Gallons of cold water per hour without a Cold tank.
